COMANDA

Brand Guidelines

Cada pedido em seu lugar.

proposta-1 · 2026-09-30

Comanda organizada

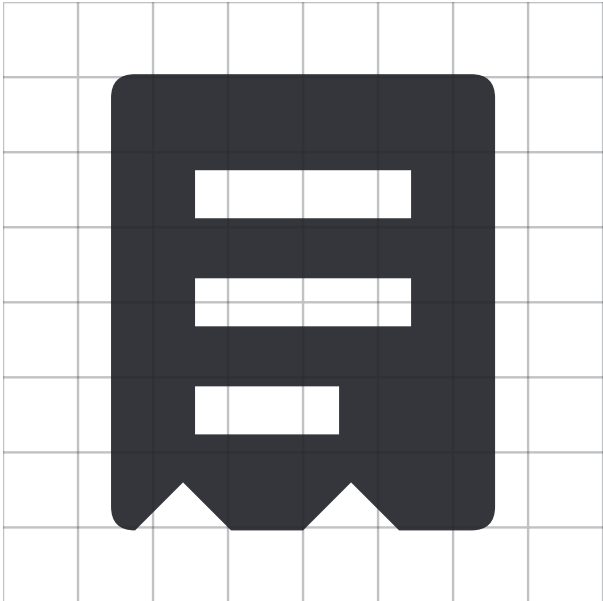

Uma ficha compacta com três linhas alinhadas representa cada pedido em seu lugar.

Relationship to the name: **abstract**. Operation: Três linhas vazadas no corpo de uma ficha com base destacável.

Uma comanda clara deixa o atendimento mais simples. Três linhas de pedidos contidas em uma ficha compacta representam organização no balcão.

the symbol

Grid: modular · U = 100

ELEMENT	VALUE
U	100
módulo	10
corpo	64 × 76
linhas	36 / 36 / 24 × 8
raio	4

CLEAR SPACE AND MINIMUM SIZE

Exclusion zone = 1 x on all four sides. Nothing enters it: no text, no image edge, no page trim, no other logo.

CONTEXT	MINIMUM
Symbol, digital	16 px
Lockup, digital	140 px wide
Symbol, print	8 mm
Lockup, print	35 mm wide

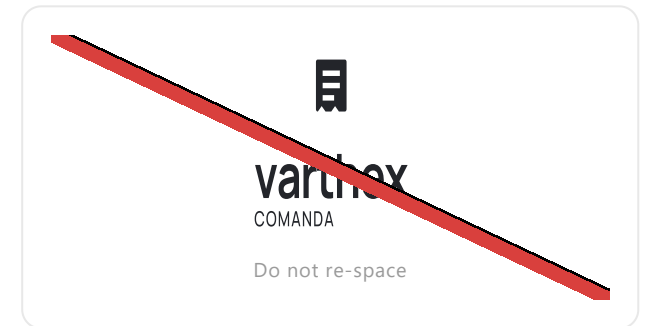

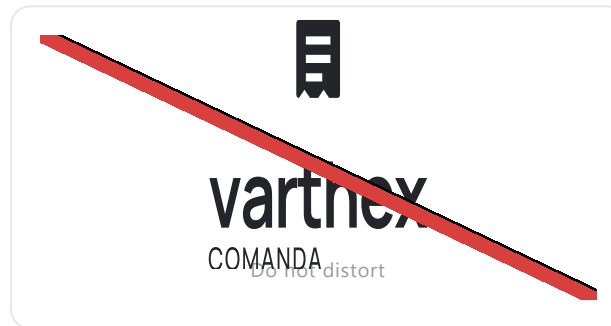

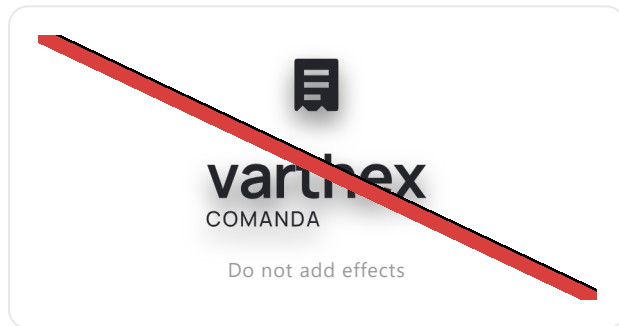

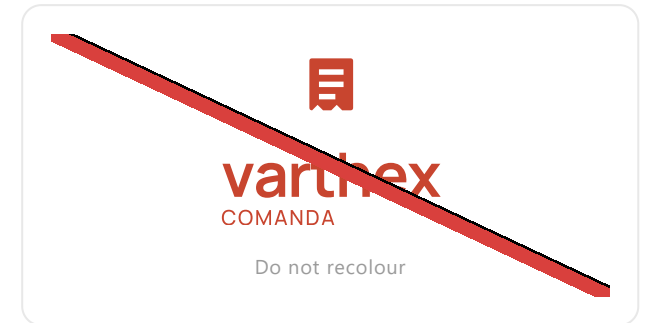

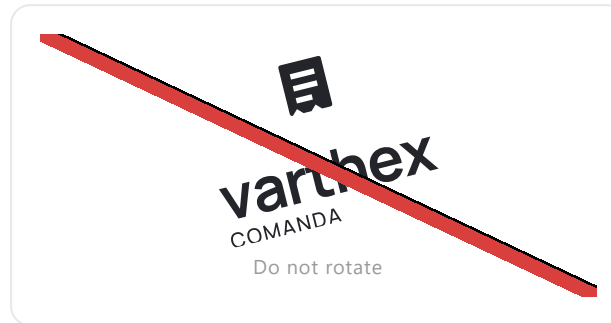

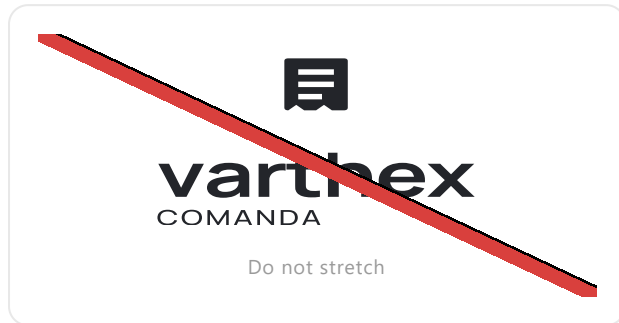

Below the minimum, switch lockup — do not shrink. The stacked lockup holds at smaller widths than the horizontal; below that, use the symbol alone.

VARIATIONS

Use **Primary** on light backgrounds and **Reverse** on dark ones or over imagery. **Monochrome** is for single-colour processes — stamping, engraving, embroidery, fax-grade print. **Tint** is for secondary placements only, never for the primary signature.

MISUSE

Also: never place the mark on a busy photograph or a low-contrast field, never box it when the layout does not require a box, and never re-type the wordmark in another typeface.

COLOUR

Grafite

Modular scale, base 16px, ratio 1.2. Measure: 45–75 characters.

ICONOGRAPHY

Icons are drawn on the mark's DNA: the same grid, the same stroke weight, the same terminals and corner radius. A borrowed icon set overwrites the brand's character on every screen.

24 × 24 grid, 20px live area. Outline style throughout — never mix filled and outline in one set. Every icon uses `currentColor`, so one file works in every colourway and in dark mode.

Test at 16px before shipping. An icon that turns to mud is redrawn, not shrunk.

simples · confiável · moderna

WE SAY

- Cada pedido em seu lugar.

WE DON'T SAY

- Revolucionário

Everything is in the delivered asset folder, organised by use.

NEED	FOLDER
Logo on light backgrounds	01-logo/primary/
Logo on dark backgrounds or photos	01-logo/white/
Single-colour processes	01-logo/black/
Avatar, favicon, app icon	02-symbol/
Fonts and licences	03-typography/fonts/
Colour tokens for developers	04-color/tokens.css · tokens.json
Icon set	05-icons/
Email signature, letterhead	09-templates/

Use the SVG wherever the tool accepts one. Any application not covered here is approved by the brand owner before it ships.
